

## Komet Jewellery. Saw Frame and Saw Blades.

REF: KSF01

### Saw Frame 'Green Lion'.

Stylish, uncomplicated saw frame with great balance and easy handling, with a comfortable and ergonomic hard rubber handle, produced of a strong and flexible steel frame, that need only a small amount of compression when creating tension for the blade.

With the carefully designed finger hooks at each end you can simply use your hands strengths instead of body weight to create tension, unlike traditional saw frames. The thumbscrews allow a quick and easy change of the saw blades. The reversible thumbscrews making this frame ideal for both left or right handed jewellers.

REF: KSF01	
Cutting Depth	108 mm
Width	130 mm
Length	280 mm
Weight	200 g
Material	Steel
Colour	Black

### Saw Blades.

Saw Blades with round back for jewellers and goldsmiths for cutting all metals.

Steel of the best available quality is used for manufacturing the saw blades. Special heat processes endow the saw blades with a tenacity and extreme flexibility.

The precise toothing guarantees cuts of outstanding quality. A water repellent protective layer and a careful packaging provide reliable protection against rust under normal storing conditions.

#### Advantages:

- for cutting all metals
- round back, extremely flexible
- clean, precise and straight cut
- long service life
