Your All-In-One Jewelry Photography Solution

Ecommerce Ready Images

78% of customers prefer seeing images on a white background. GemLightbox allows you to achieve a natural white background using nothing more than just your smartphone.

Take images directly with your smartphone and upload them onto your favourite marketplace.

Dominate Social Media

Our data shows that 3 images a day is what you need to dominate social media. It's better to do 3 updates per day than 1 update every couple months.

Take social media to the next level with GemLightbox

Inventory And Appraisals

Take images immediately off your smartphone once your stock arrives, use the images for appraisals or directly send them into your inventory control system. Who doesn't love a clean, beautiful looking inventory?

Take images directly with your smartphone and upload them onto your favourite CRM or POS system.

No setup or training

Plug and play. We've created the perfect lighting environment no matter where your jewelry is placed inside GemLightbox.

Save time and money

Bring photography into your own hands. Get the photos you want.

For all jewelry

100% colour accuracy. Whether you're photographing diamonds, gems, pearls in any shape or form we've got you covered.
